TITLE

Algorithm for the p_t-persistent protocol for high-speed fibre optic networks **Mukherjee, B** 387
Analysis and simulation of the priority scheme in token bus protocols **Hong, S H and Ray, A** 157
Analysis of interconnected systems of token ring network **Ibe, O and Cheng, X** 136
Analytical approach to discrete optimization of queueing networks **Bauer, G and Bolch, G** 494
Application development, software engineering and distributed processing **Lorin, H** 4
Architecture for distributed multimedia database systems **Berra, P B, Chen, C Y R, Ghafoor, A, Lin, C C, Little, T D C and Shin, D** 217
Automatic repeat-request protocols and their queueing analysis **Zhou, X Y and Kamal, A E** 298
Basic rate ISDN workstation traffic patterns **Pavlou, G and Knigjht, G** 587
Bit-rate compression and restricted access strategy for integrated services digital networks **Chua, K C and Nguyen, D T** 67
Coloured generalized stochastic Petri nets for integrated systems protocol performance modelling **Li, M and Georganas, N D** 414
Comparison of accessing techniques with priority **Mehmet-Ali, M, Grela-M'Poko, B and Hayes, J F** 149
Considerations on the OSI Reliable Transfer Service **Blumann, W, Fauth, D and Zok, H** 143
Concert - an initiative towards open integrated network management **Willetts, K** 527
Datalink's PANMAN - managing networks in a period of change **Roberts, S** 170
Cooperative distributed problem solving for communication network management **Weihmayer, R and Brandau, R** 547
Decomposition approach to evaluate CSMA/CD protocol performance with asymmetric workload **Vecchione, M** 611
Distributed multimedia information handling **Moeller, E, Scheller, A and Schurmann, G** 232
Dynamic bandwidth allocation technique for high speed LANs **Pell, H L and Majithia, J C** 93
Estimating network communication speeds for office automation **McCallum, J, Ranai, K and Srinivasan, B** 95
Extending OSI to support synchronization required by multimedia applications **Shepherd, D and Salmony, M** 399
Family of protocols for ring LANs with an auxiliary bus and parallel reservations **Moizakis, D J, Economou, E G and Philokyprou, G** 337
Fibre optic LAN systems and costs **Herskowitz, G J, Merino, D N, Tselios, D and Schroff, V C** 37
Flow control and deadlock avoidance on the partial optical hypergraph **Ofek, Y** 283
IKBS in network management **Malcolm, J and Wooding, T** 542
Implementation of Segnet and its experimental performance **Lye, K M, Yap, F T and Wong, W C** 478
Integrated methodology for supporting packet network performance management and planning **Wang, J L and White, E A** 558
Inter-processor communication and Ada in distributed real-time systems **Nielsen, K and Carlsson, H** 451
Introduction to names, addresses and routes in an OSI environment **Patel, A and Ryan, V** 27
ISDN implementation for a point-to-multipoint subscriber radio system **Le-Ngoc, T, Stashin, M and Elkateeb, A** 131
Method of analysing extended finite-state machine specifications **Sarikaya, B, Koukoulidis, V and Bochmann, G V** 83
Millhouse's Linguist protocol conversion processor **Christian, P** 48
Model and architecture of a generalized network management system **Roos, J, Jordaan, D, Markgraff, M and van Rooyen, F** 517
Monitoring tool for the Cambridge ring LAN **Fulcher, J and McKerrow, P** 619
Multicast communication on the Unison network **Shrimpton, D H and Cooper, C C** 460
Multilingual communications in an open system architecture **Jerman-Blazic, B** 267
Multimedia applications **Naffah, N** 243
Multiuser tools architecture for group collaboration in computer networks **Abdel-Wahab, H M** 165
Network management issues in support of X.32 services **Patel, A** 347
Network security issues **Halliden, P** 626
New 3D graphical presentation of the ISO transport protocol **Poo, G-S and Ang, W** 108
OSI addressing strategies for interconnected LANs **Poo, G-S and Ang, W** 290
OSI protocol choices for LAN environments **Poo, G-S and Ang, W** 17
Performance analysis of timed Petri net models for communication protocols: a methodology and package **El-Karaksy, M R, Nouh, A S and Al-Obaidan, A** 73
Performance evaluation of communication protocols for distributed processing **Vaidyanathan, P and Midkiff, S F** 275
Performance of a new LAN for real-time traffic **Cherkassy, V, Lari-Najafi, H, Lawrie, N L, Masson, D and Pritty, D W** 259
Performance of a dynamically segmentable ring network **Wong, W C, Lye, K M and Ko, C C** 331
Protocol analyser for the monitoring and analysis of OSI networks **Halsall, F and Modiri, N** 533
Reliability ranking of communication networks **Camarda, P and Gerla, M** 487
Retargetable stub generator for a remote procedure call facility **Tham, Y K and Bhonsle, S K** 323
Simple performance analysis of a token ring metropolitan area network **Ko, C C, Tjhung, T T, Seah, K G and Lye, K M** 425
Simulation of random multiple access protocol **Satija, S M and Gupta, H M** 433
Simulation study of a flood routing technique for mesh-like LANs **Pung, H** 354
Specifying discretionary access control policy for distributed systems **Moffett, J, Sloman, M and Twidle, K** 571
Supporting object interaction in heterogeneous distributed systems **Lea, R and Walpole, J** 365
Tiled raster data **Shepherd, B J** 51
Traffic analyser and generator.
Part 1: High-speed traffic capture for IEE 802.3/Ethernet networks 407
Part 2: Traffic capture, generation, statistics and network integrity tests program in C **Protogeros, A and Ball, E** 469
Transport services for multimedia applications on broadband networks **Hehmann, D B, Salmony, M G and Stuttgen, H J** 197
Using an object-oriented approach to model multimedia data **Klas, W, Neuhold, E J and Schrefl, M** 204
1984/1988 X.400 Recommendations - user requirements **Pankoke-Babatz, U** 595

SUBJECT

BOOK REVIEWS

Communication and delivery systems for librarians **R Adams** 503
Computer and communications security **J A Cooper** 54
Current advances in LANs, MANs and ISDN **B G Kim (ed)** 440
Data networks: concepts, theory and practice **U D Black** 581
Distributed group communications - the Amigo information model **H Smith, J Onions and S Benford (eds)** 503
Distributed systems **S Mullender (ed)** 250
Expert systems applications in integrated network management **E C Ericson, L Ericson and D Minoli (eds)** 312
Future networks: new developments -

index

new opportunities **R Reardon (ed)** 115
Inside X.25: a manager's guide **S Schlar** 582
Integrated circuit cards, tags and tokens **P Hawkes, D Davies and W Price (eds)** 312
LANs: applications of IEEE/ANSI 802 standards **T Madron** 440
Performance estimation in computer communication networks - a structured approach **P K Verma** 53
Theory of nets **W-K Chen** 374
The principles of computer networking **D Russell** 175

BULLETIN

Auto-freephone service offers business opportunities 176
Contractual orders for digital public telephone exchange 177
Datacoms network for Leeds Poly 506
Developments in satellite communications 177
Integrated network trading services 119
Land mobile services by satellite 506
Optical fibre 'pipelines' on trial 253
Pan-European group supports EDI in health care 507
Separate UK initiatives seek to establish improved data comms with Moscow 634
Stretegy addresses application software development needs 62
US Air Force implements FDDI intelligence network 507
£1M satellite broadcasting order won 506

DISTRIBUTED COMPUTING

Application development, software engineering and distributed processing **Lorin, H** 4
Inter-processor communication and Ada in distributed real-time systems **Nielsen, K and Carlsson, H** 451
Multiuser tools architecture for group collaboration in computer networks **Abdel-Wahab, H M** 165
Retargetable stub generator for a remote procedure call facility **Tham, Y K and Bhonsle, S K** 323
Supporting object interaction in heterogeneous distributed systems **Lea, R and Walpole, J** 365

HIGH SPEED NETWORKS

Dynamic bandwidth allocation technique for high speed LANs **Pell, H L and Majithia, J C** 93
Extending OSI to support synchronization required by multimedia applications **Shepherd, D and Salmony, M** 399

IMPLEMENTATION

Implementation of Segnet and its experimental performance **Lye, K M, Yap, F T and Wong, W C** 478
ISDN implementation for a point-to-multipoint subscriber radio system **Le-Ngoc, T, Stashin, M and Elkateeb, A** 131

LITERATURE

63, 126, 189, 251, 319, 380, 636

LOCAL AREA NETWORKS

Analysis of interconnected systems of token ring network **Ibe, O and Cheng, X** 136
Estimating network communication speeds for office automation **McCallum, J, Ranai, K and Srinivasan, B** 95
Fibre optic LAN systems and costs **Herskowitz, G J, Merino, D N, Tselios, D and Schroff, V C** 37
Monitoring tool for the Cambridge ring LAN **Fulcher, J and McKerrow, P** 619
OSI addressing strategies for interconnected LANs **Poo, G-S and Ang, W** 290
Performance of a new LAN for real-time traffic **Cherkassy, V, Lari-Najafi, H, Lawrie, N L, Masson, D and Pritty, D W** 259
Reliability ranking of communication networks **Camarda, P and Gerla, M** 487

MARKET FORECAST

Boom in network management systems 118
Data compression facilitates document imaging 117
EDI markets take off 116
EDI strategy package 55
European markets ripe for data broadcasting 504
Excitement surrounds X.400 developments 183
High speed local networks to take off 382
Implementing EDI strategies 117
Integration forces change in NM market 55
ISDN IC forecasts 55
ISDN set to surge into the 1990s 116
LAN market is in a healthy state 382
Market boom for network interfaces 182
Market boom for OSI 318
Market for WAN telecommunications products expands 504
Network users demand more from vendors 182
Relaxed standard may jeopardize Tempest market 182
Telecommunications for 1992 183
Telex retreats under e-mail onslaught 118
The road to intelligent network success 504
Users require better network management products 318

MULTIMEDIA

Architecture for distributed multimedia database systems **Berra, P B, Chen, C Y R, Ghafoor, A, Lin, C C, Little, T D C and Shin, D** 217
Distributed multimedia information handling **Moeller, E, Scheller, A and Schurmann, G** 232
Multimedia applications **Naffah, N** 243
Transport services for multimedia applications on broadband networks **Hehmann, D B, Salmony, M G and Stuttgen, H J** 197
Using an object-oriented approach to model multimedia data **Klas, W, Neuhold, E J and Schrefl, M** 204

NETWORK ARCHITECTURE

Flow control and deadlock avoidance on the partial optical hypergraph **Ofek, Y** 283
Multicast communication on the Unison network **Shrimpton, D H and Cooper, C C** 460
Simulation study of a flood routing technique for mesh-like LANs **Pung, H** 354

NETWORK MANAGEMENT

Concert - an initiative towards open integrated network management **Willetts, K** 527
Cooperative distributed problem solving for communication network management **Weihmayer, R and Brandau, R** 547
IKBS in network management **Malcolm, J and Wooding, T** 542
Integrated methodology for supporting packet network performance management and planning **Wang, J L and White, E A** 558
Model and architecture of a generalized network management system **Roos, J, Jordaan, D, Markgraff, M and van Rooyen, F** 517
Network management issues in support of X.32 services **Patel, A** 347
Network security issues **Halliden, P** 626
Protocol analyser for the monitoring and analysis of OSI networks **Halsall, F and Modiri, N** 533
Specifying discretionary access control policy for distributed systems **Moffett, J, Sloman, M and Twidle, K** 571

index

PERFORMANCE

Analytical approach to discrete optimization of queueing networks **Bauer, G and Bolch, G** 494
Bit-rate compression and restricted access strategy for integrated services digital networks **Chua, K C and Nguyen, D T** 67
Comparison of accessing techniques with priority **Mehmet-Ali, M, Grela-M'Poko, B and Hayes, J F** 149
Coloured generalized stochastic Petri nets for integrated systems protocol performance modelling **Li, M and Georganas, N D** 414
Considerations on the OSI Reliable Transfer Service **Blumann, W, Fauth, D and Zok, H** 143
Performance analysis of timed Petri net models for communication protocols: a methodology and package **El-Karaksy, M R, Nouh, A S and Al-Obaidan, A** 73
Performance evaluation of communication protocols for distributed processing **Vaidyanathan, P and Midkiff, S F** 275
Performance of a dynamically segmentable ring network **Wong, W C, Lye, K M and Ko, C C** 331
Performance of a new LAN for real-time traffic **Cherkassy, V, Lari-Najafi, H, Lawrie, N L, Masson, D and Pritty, D W** 259

PRODUCT REVIEW

Business communication system unveiled 185
Communications and connectivity solutions for IBM mid-range systems 377
Communications options broadened for AS/400s 58
Datalink's PANMAN - managing networks in a period of change **Roberts, S** 170
Fibre-optic transmission/switching products unveiled 57
Gandalf offers Ethernet over twisted pair 59
ISDN applications protocol link for interworking 315
LAN/LAN and LAN/WAN internetworking launch 377
Millhouse's Linguist protocol conversion processor **Christian, P** 48
Multimedia capabilities brought to desktop 185
Multiprotocol datacomms chip to aid system designer 315
One-card LAN systems breakthrough 58
Software for LAN fax and telex 184
Unix-based OSI-compliant products on the market 184
3Com extends client-server internetworking 59

PRODUCTS IN BRIEF

60, 124,186, 254, 316, 379, 442, 508, 63 2

PROTOCOLS

Algorithm for the p_t-persistent protocol for high-speed fibre optic networks **Mukherjee, B** 387
Analysis and simulation of the priority scheme in token bus protocols **Hong, S H and Ray, A** 157
Automatic repeat-request protocols and their queueing analysis **Zhou, X Y and Kamal, A E** 298
Decomposition approach to evaluate CSMA/CD protocol performance with asymmetric workload **Vecchione, M** 611
Family of protocols for ring LANs with an auxiliary bus and parallel reservations **Moizakis, D J, Economou, E G and Philokyprou, G** 337
Method of analysing extended finite-state machine specifications **Sarikaya, B, Koukoulidis, V and Bochmann, G V** 83
New 3D graphical presentation of the ISO transport protocol **Poo, G-S and Ang, W** 108
OSI addressing strategies for interconnected LANs **Poo, G-S and Ang, W** 290
OSI protocol choices for LAN environments **Poo, G-S and Ang, W** 17

SATELLITE COMMUNICATIONS

Simulation of random multiple access protocol **Satija, S M and Gupta, H M** 433

STANDARDS

European OSI conformance testing established 375
European research network contract signed 180
FDDI interoperability testing is a success 121
FDDI standard delayed 120
First test of FDDI station management working documentation 314
International OSI co-op 120
International standard for data compression 121
Joint OSI testing and demonstration collaboration 181
Major step towards OS testing 120
Motor industry backs EDIFACT 180
Multilingual communications in an open system architecture **Jerman-Blazic, B** 267
Network management conformance tester to be developed 180
Terminals support nm protocols 375
Tiled raster data **Shepherd, B J** 51
Unit set up to promote EDI standards 314
West Germans adopt OS standard 181
1984/1988 X.400 Recommendations - user requirements **Pankoke-Babatz, U** 595

SYSTEMS

Auto giants connect with EDI 179
Automatic call distribution system now available 445
Broadband for city technology college 56
Interlinking of printers...now a reality 445
International EDI software product 123
Seventy-nine sites linked by Cambridge University £2.5 M network installation 631
Strategic agreement between Ericsson and Stratus on TMOS operating system 630
THISCO connects to European CRSs 630
Token ring products launched 123
WAN solutions in the pipeline 123
Weather centre forecasts move to OSI by 1992 56
100 Mbit/s fibre optic network 445

TRAFFIC ANALYSIS

Basic rate ISDN workstation traffic patterns **Pavlou, G and Knight, G** 587
Simple performance analysis of a token ring metropolitan area network **Ko, C C, Tjhung, T T, Seah, K G and Lye, K M** 425
Traffic analyser and generator.
Part 1: High-speed traffic capture for IEE 802.3/Ethernet networks 407
Part 2: Traffic capture, generation, statistics and network integrity tests program in C **Protogeros, A and Ball, E** 469

Reprints

Reprints of all papers published in *Computer Communications* are available in quantities of 100 or more.
